This is an exciting post which we are hoping will attract the attention of someone with a medical/nursing background. We would like to appoint our own school nurse to lead first aid and medical support across the school. We have established a medical room and our School Nurse will use it as a base for providing first aid to students and staff.

In addition to providing a reactive first aid service you will also oversee all ongoing medical needs in school, run the immunisation programme and ensure we have robust systems for recording and reporting medical issues. You do need to be qualified nurse and this post will sit within the administration team and so there will be some of general admin work to complete as well.

Slough and Eton is a great school on the outskirts of Slough, which serves the Chalvey community. We are relentlessly focused on ensuring great teaching, learning and experiences are at the core of what we do. It's an exciting time for us and our students are a pleasure to work with.

If you are interested in finding out more then please read the welcome letter from our Headteacher and feel free to visit the school in advance of applying - please contact Beverly Glanville, HR advisor. We are, of course, committed to safeguarding the welfare of our students and staff and will conduct all necessary DBS checks as part of our recruitment process.

We look forward to hearing from you.

If you would like to contribute to our exciting future please contact our HR Advisor, Beverly Glanville for an application form vacancies@slougheton.com or visit our website at www.slougheton.com in the vacancy section for further details and application pack. **CV's alone will not be accepted as a valid application.**
